- The "Space Saver" that stretches out up to 5 times its original length!
- Expandable Versa-Pak requires 80% less storage space than bubble-pack or packing peanuts.

Did you know?

* The cost for an average return for damaged product or using improper packaging is \$40-Are you using the right packaging product?
With Versa-Pak® we have you covered!

FEATURES & BENEFITS:

- **Environmentally Friendly**
-Made with 100% recycled and 100% biodegradable cellulose tissue.
- **Conforms**
-Flexible and stretchable, fits around odd-shaped items better than bubble pack or foam.
- **Protects Surfaces**
-Soft and non-abrasive, won't scratch delicate surfaces.
- **Reduces shipping costs**
-Versa-Pak® weighs up to 30% less than other cellulose products at equal thickness, reducing your freight costs.

Did you know?

* Postal regulations require that "Glass and other breakable containers holding more than 4 fluid ounces must be cushioned with material that can readily absorb any leakage." *With Versa-Pak® we have you covered!*

- **Absorbent**
-Contains leaks and spills, pulls moisture away to help prevent damage to products. Can absorb up to 12 times its weight in water and up to 5 times its weight in hydrocarbons.
- **Insulates**
-Same "R" value as fiberglass. Helps protect products from damage due to extreme temperature changes.
- **Cushions**
-Versa-Pak's unique Hydro-Crepe® technology provides better shock absorption than bubble pack and other cellulose products.
- **Superior Bulk**
-Our exclusive Hydro-Crepe® Tissue has a unique raised texture which, when plied together, gives Versa-Pak® superior bulk.
- **Customize your Product**
-We can customize to fit your needs. Choose from natural or bleached white tissue and kraft or poly backing. *You name it we have you covered!*

We think **i n s i d e** the B o x .
